Make pollution information easy to find

To: Louisiana Department of Environmental Quality (LDEQ)

RE: Louisiana Integrated Polyethylene JV LLC — Draft Water Discharge Permit

Agency Interest (AI): 226602

Activity: PER20260001

LPDES Permit: LA0127532

Dear LDEQ:

Families in our area deserve to know what chemicals nearby plants release. I am concerned that information about Sasol is harder to find in EPA's ECHO system since the work with LIP JV began. Even if the records exist in another government database, many of us do not know how to find them.

I ask LDEQ to explain how residents can look up both Sasol's and LIP JV's pollution and compliance records, including past years. Please tell the public clearly which company is responsible for each part of the plant. Do not approve this permit without answering these questions.

Thank you for considering my comment. Please include it in the public record and respond to the concerns I raised.
