Look at all the plants, not just one

RE: Louisiana Integrated Polyethylene JV LLC — Draft Water Discharge Permit

Agency Interest (AI): 226602

Activity: PER20260001

LPDES Permit: LA0127532

Dear LDEQ:

I worry that Bayou Verdine and the Calcasieu River are being affected by many industrial plants at the same time. Even if one plant meets its own permit rules, the pollution from several plants together may still hurt the water.

Please look at the total pollution going into this area from LIP JV, Sasol, Phillips 66, and other nearby sources. Pay special attention to low oxygen in Bayou Verdine and what that means for fish. Tell residents what the combined impact is before allowing more wastewater under this permit.

Thank you for considering my comment. Please include it in the public record and respond to the concerns I raised.
